

Professor Siew Chien Ng

Professor, Division of Gastroenterology and Hepatology, Department of Medicine and Therapeutics, Faculty of Medicine, The Chinese University of Hong Kong

Professor Siew Chien Ng is currently a Professor of the Division of Gastroenterology and Hepatology of the Department of Medicine and Therapeutics, and Associate Director of the Centre for Gut Microbiota Research under the Faculty of Medicine of The Chinese University of Hong Kong (CUHK). She graduated from St Bartholomew's and the Royal London School of Medicine and was awarded a Doctor of Philosophy degree from Imperial College London. Professor Ng joined CUHK in 2010. Her main research interests include the development of microbial diagnostics and innovative applications of microbial medicine for inflammatory bowel disease, obesity and cancer.

In 2017, experts from the Faculty of Medicine at CUHK, including Professor Ng, established Asia's first Microbiota Transplantation & Research Centre to develop personalised gut microbiota-based therapy. The centre is the sole provider of intestinal microbiota transplantation to the health authority in Hong Kong. As a world-renowned clinician-scientist, Professor Ng has published around 200 scientific articles in international journals, including *Nature Genetics*, *Nature Communications* and *The Lancet*, and has filed several patents. She is also the pioneer in conducting research on "100K mother-baby cohort" in the Greater Bay Area of China. For her outstanding research achievements, Professor Ng has received many international awards including the Sir David Todd Lectureship, Sir Francis Avery Jones Lectureship, the First-class of Higher Education Outstanding Scientific Research Output Award and the Emerging Leader Lectureship Award, etc.
