RESEARCH PROJECTS

Charting Hong Kong's Public Perception of Social Welfare

- ✍ WONG Ka Ying Timothy • WONG Chack Kie (Social Work)
- ☐ 1 March 1998
- ❖ CUHK Research Committee Funding

This study attempts to employ James Midgely's conceptual framework of social welfare to systematically examine Hong Kong people's attitudes toward the condition of social welfare in Hong Kong by means of telephone survey. A similar study was first undertaken in last October. This is a continued study with an aim to chart the changes since then. It also wants to remedy some of the weaknesses found in the previous study, such as failing to ask the public to report their class mobility over the past decade. Without such knowledge, it is difficult to make accurate causal inference regarding public perception of social welfare and class position. The study is

significant in both theoretical and policy terms. Theoretically, it operationalizes an old concept by using Midgely's new conceptual framework, extending the concept to compose the control of social problems, the fulfillment of social needs, and the maximization of social opportunities. In policy terms, it provides subjective social indicators for the public and the government policy makers to assess the state of social welfare in Hong Kong. (SS97046)

RESEARCH PROJECTS

Chinese Ancient Texts Database

✉ CHEN Fong Ching • LAU Din Cheuk • JAO Tsung I • HO Che Wah (Chinese Language & Literature)

☐ 15 March 1998

❖ Central Allocation Scheme - Group Research

The CHinese ANcient Text (CHANT) database project was started in 1988, and the original scope was to build an electronic database of all pre-220 A.D. traditional Chinese texts. It has since grown into a long-term effort for systematically absorbing *all* Chinese ancient texts spanning the two millennia from 1500 BC to about 600 AD into one single, comprehensive database, which will, when completed, become a major tool for the entire field of the study of ancient China.

This project has been awarded a group research grant of HK\$3M for the triennium 1998-2001, and its revised objectives are as follows:-

- (1) To complete publications related to the database already built, i.e.
 - (a) to complete the 65-volume concordance series of pre-220 A.D. texts, and to publish concordances of *selected* texts of the 220-589 A.D. period;

- (b) to pursue publication on electronic media of the database of *selected* pre-589 A.D. texts; and
 - (c) to complete publication on electronic media of the database of *jianbo* and *jiagu* texts.
- (2) To carry out software development including
 - (a) scanning and processing of the images of excavated texts; and
 - (b) integration of diverse database into a unified system.
 - (3) To do preliminary studies and then work on a database of bronze inscriptions.
 - (4) To release the Database of Ancient Chinese Texts constructed on Internet.

東亞古玉器研究

Archaic Jade Culture in East Asia

✉ 鄧聰 TANG Chung

□ 1 May 1998

❖ Bei Shan Tang Foundation of Hong Kong

為慶祝由鄭德坤教授所創立中國考古藝術研究中心(1978-98)成立二十周年。本中心經一年來籌備，以東亞古代玉器為主題之國際會議，幸得中國大陸、台灣、俄國、蒙古、日本、朝鮮半島、菲律賓、越南、泰國、美國和歐洲等地第一線玉器研究學者積極支持，會議籌備工作進行順利。近年中國古玉研究如日中天。是次會議之特色，強調以第一線田野考古工作為中心，運用考古方

法分析玉器，並配合玉器礦物科學分析，兼顧及玉器在文學、古文化及社會等關係，企圖以中國為中心反映東亞古代玉器文化之全貌。

RESEARCH PROJECTS

中國現代政治文化形成的統計研究

A Quantitative Study of the Formation of Certain Modern Chinese Political Concepts

✉ 金觀濤 JIN Guantao • 劉青峰 LIU Qingfeng
(Institute of Chinese Studies)

☐ 1 September 1997

❖ Research Grants Council

1995年我們完成了「中國現代政治文化的起源」這一課題，提出儒家傳統的基本結構左右了中國當代政治文化的形成，質疑目前佔主導地位的視中國當代政治文化為傳統斷裂的觀點。本課題的目的是對我們提出的假說進行大規模的統計檢驗。我們選擇1895-1945年間出版的13種中文報刊，對其中5000萬字的言論進行統計分析，以便對社會觀念的變遷提供較客觀的經驗證據。該課題力圖突破思想史研究僅僅根據個別思想家、

人物言論作出概括的局限，探索從言論統計來分析觀念變遷的方法。

CHENG Chun Yiu Jack (Orthopaedics & Traumatology)
HA Sau Ching Amy (Sports Science & Physical Education)
HJELM N. Magnus (Chemical Pathology)
HONG Youlian (Sports Science & Physical Education)
HUI Sai Chuen Stanley (Sports Science & Physical Education)
HUNG Leung Kim (Orthopaedics & Traumatology)
JOHNS David Paul (Sports Science & Physical Education)
LAU Ming Chu Edith (Community & Family Medicine)
LEE Ka Ho Kenneth (Anatomy)
LEE Kwong Man Simon (Lee Hysan Clinical Research Laboratories)
LEE Shiu Hung (Community & Family Medicine)
LEUNG Kwok Sui (Orthopaedics & Traumatology)
LEUNG Ping Chung (Orthopaedics & Traumatology)
LI Ming (Orthopaedics & Traumatology)
QIN Ling (Orthopaedics & Traumatology)
ROLF Christer (Orthopaedics & Traumatology)
WONG Heung Sang Stephen (Sports Science & Physical Education)
WONG Wan Nar Margaret (Orthopaedics & Traumatology)
WOO Jean (Medicine & Therapeutics)
ZHANG Yuanting (Electronic Engineering)

Joint Laboratory for Geoinformation Science

CHEN Yongqin David (Geography)
CHENG Shouquan (Geography)
FU Wai Chee Ada (Computer Science & Engineering)
FUNG Tung (Geography)
KWAN Tze Wan (Philosophy)
LAM Chi Chung (Curriculum & Instruction)
LAM Kai Pui (Systems Engineering & Engineering Management)
LEUNG Kwong Sak (Computer Science & Engineering)
LEUNG Yee (Geography)
LI Duan (Systems Engineering & Engineering Management)
LIEW Soung Chang (Information Engineering)
LIN Hui (Geography)
LYU Rung Tsong (Computer Science & Engineering)
NG Fung Yee Linda (Decision Sciences & Managerial Economics)
PENG Yuseng (Sociology)
SHEN Jianfa (Geography)
SUN Hanqiu (Computer Science & Engineering)
TANG Chung (Centre for Chinese Archaeology & Art)
TONG Fuk Kay Franklin (Information Engineering)
TSOU Jin Yeu (Architecture)
TUAN Chyau (Decision Sciences & Managerial Economics)
XU Yangsheng (Mechanical & Automation Engineering)
ZOU Jun (Mathematics)

Materials Science & Technology Research Centre

CHAN Kam Tai (Electronic Engineering)
CHIK Kin Pong (Physics)
HARK Sui Kong (Physics)
HSU Chung Chi (Electronic Engineering)
HUI Ka Chung (Chemistry)
KUI Hin Wing (Physics)
KWOK Wai Man (Chemistry)
LAM Yip Keung Peter (Institute of Chinese Studies – Art Museum)
LAU Woon Ming Leo (Physics)
LEE Wing Kee (Physics)
LI Wen Jung (Mechanical & Automation Engineering)
LIAO Wei Hsin (Mechanical & Automation Engineering)
LIN Hai Qing (Physics)
LIU Zhi Feng (Chemistry)
LUI Ka Man (Physics)
LUO Enzhou (Electronic Engineering)
NG Hang Leung (Physics)
TSANG Hon Ki (Electronic Engineering)
WILSON Ian H (Electronic Engineering)
WONG Hong Kuen (Physics)
WONG Sai Peng (Electronic Engineering)
XU Jian Bin (Electronic Engineering)
YAU Kwok Fung John (Physics)
YEUNG Siu Kau Stephen (Mechanical & Automation Engineering)
YU Chai Mei Jimmy (Chemistry, Centre for Environment Studies)

Research Institute for the Humanities

The Research Institute for the Humanities (R.I.H.) is restructured and now adopts an open-door policy. The aim is to provide a stimulating environment for exchanging ideas on academic and research interests in the humanities; and for bringing into focus the future research directions. All humanities research projects funded by University Grants Council/Research Grants Council and other grants will be housed under the R.I.H. In other words, all members in the Faculty of Arts are invited to join. The R.I.H. will provide clerical and logistic support, serving as a clearing house of research information and will organize events such as workshops, lectures, brain-storming sessions for possible research topics.
